**S**omos artesanos y trabajamos el legado que nuestros antepasados, los Arabes, forjaron en nuestra tierra, durante ocho siglos, hasta acuñar un sello propio, dentro de la cultura de nuestro "Al Andalus".

En SEI 3, fascinados por la belleza y la sencillez de los materiales empleados y por el efecto que, las manos de los artistas, producen en cada obra, hemos hecho de las lámparas y apliques granadinos, piezas únicas de arte y diseño, con el cariño y la maestría de nuestros artesanos.

Lámparas, donde la luz, entre la policromía de los cristales y el metal, se balancean en un caprichoso juego de colores, o en un sobrio trazado transparente y claro, como las aguas de nuestra tierra.

Por ello, por la inspiración y por el gusto de nuestros clientes, hemos desarrollado, desde 1.980, fecha de la fundación de nuestra Empresa, una gama de modelos, que exponemos en el presente catálogo.

Si no encuentra lo que desea, comuníquenos su idea y en SEI 3, con nuestro equipo de diseñadores y artesanos, lo creamos para usted.

**L**artisanat andalou est l'héritage de huit siècles de présence arabe qui a donné sa personnalité à notre société.

Les artisans de SEI 3 (Société Espagnole d'Illumination) utilisent des matériaux nobles et simples pour créer chaque objet et en faire une pièce unique.

Le jeu de couleurs lorsque la lumière se promène entre le verre et le métal de nos lampes rehaussera l'ambiance chaleureuse dans les foyers.

Depuis la création de notre société en 1.980, nous avons développé une gamme de modèles afin de satisfaire la variété de goûts de nos clients.

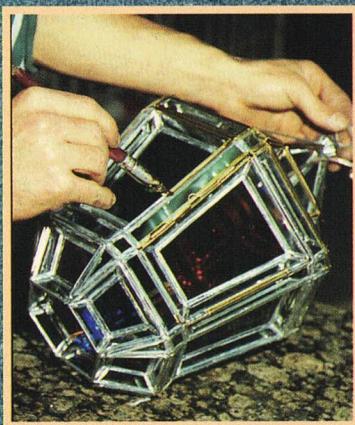

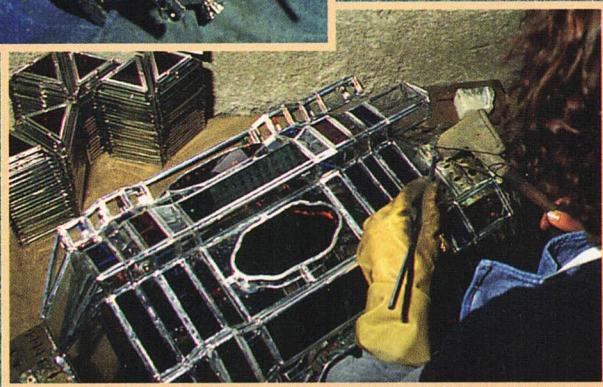

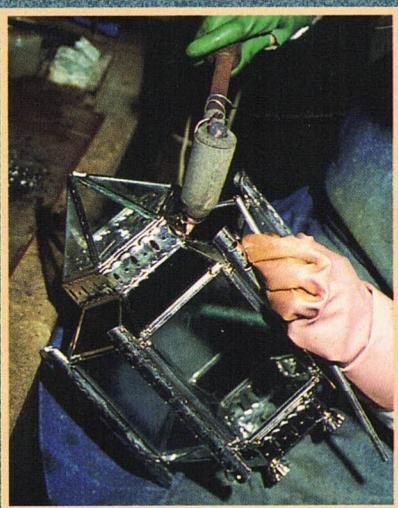

Si vous ne trouvez pas dans ce catalogue le modèle que vous cherchez, n'hésitez pas à nous communiquer vos idées et nous ferons tout notre possible pour vous satisfaire.

**S**EI 3 a lighting company located in Granada is well known in the field of colored glass with plated frame lamps, one of the main craftwork traditions of Granada, that the Arabians had been working on for 8 centuries.

All our models lend an exceptionally warm and cosy ambience to any home, being a true reflection of the skill and loving care that have been dedicated to each of our creations.

Here with you will find our large range of models that we are sure will please you. In case you wish a special model that is not in our catalog, feel free to describe us your ideas and we'll make them with pleasure within a reasonable period of time.
